

EMPOWERING WOUNDED VETERANS, ONE FAIRWAY AT A TIME

The SMGA's mission is to provide rehabilitative golf programs, experiences, and family inclusive golf opportunities for post 9/11 wounded war veterans in an effort to improve the quality of life for these American heroes. Eligible veterans and service members include those wounded or injured in post 9/11 military operations, including those with Post-Traumatic Stress Disorder (PTSD) and/or Traumatic Brain Injury (TBI).

NATIONWIDE PROGRAMMING

The SMGA provides our proven adaptive golf programs to wounded and injured veterans in every state in the country. No matter where you are, the SMGA has a program for you

MILITARY FAMILIES SERVE TOO

The SMGA recognizes that when our nation's men and women serve our country, their families do too. Since 2001, over 2.5 million service members deployed in support of the wars. These long deployments are often stressful for those family members left to support the family and home. Because of this, the SMGA promotes a family-inclusive golf instruction environment and encourages clinic participation from our veterans' families. All family and caregivers can participate in our clinics at **no cost**.
